

## ***Durable Flags Means Only the Finest!***

Our flags are meant to last. We use a combination of the highest quality components and state-of-the-art manufacturing to give you the best looking and most durable flags in the industry.

Construction begins with the finest fabrics and color-matched threads available. We then very carefully assemble each flag using a full 1/4" turn on all seams, a chain stitch for all horizontal seams (it makes the flag stronger), and a lock stitch for all edge hems. Fly hems are finished with 4 rows of stitching up to 9 1/2 ft length, 6 rows of stitching up to 38 ft length, and 8 rows of stitching on 40 ft and larger. Each step up in rows of stitching also has additional reinforcement added to both corners of the hem.

Flags 8' x 12' and above we provide rope thimbles combined with the brass grommets.
